Overview

We are making a choose-your-own-adventure game that is a web application.
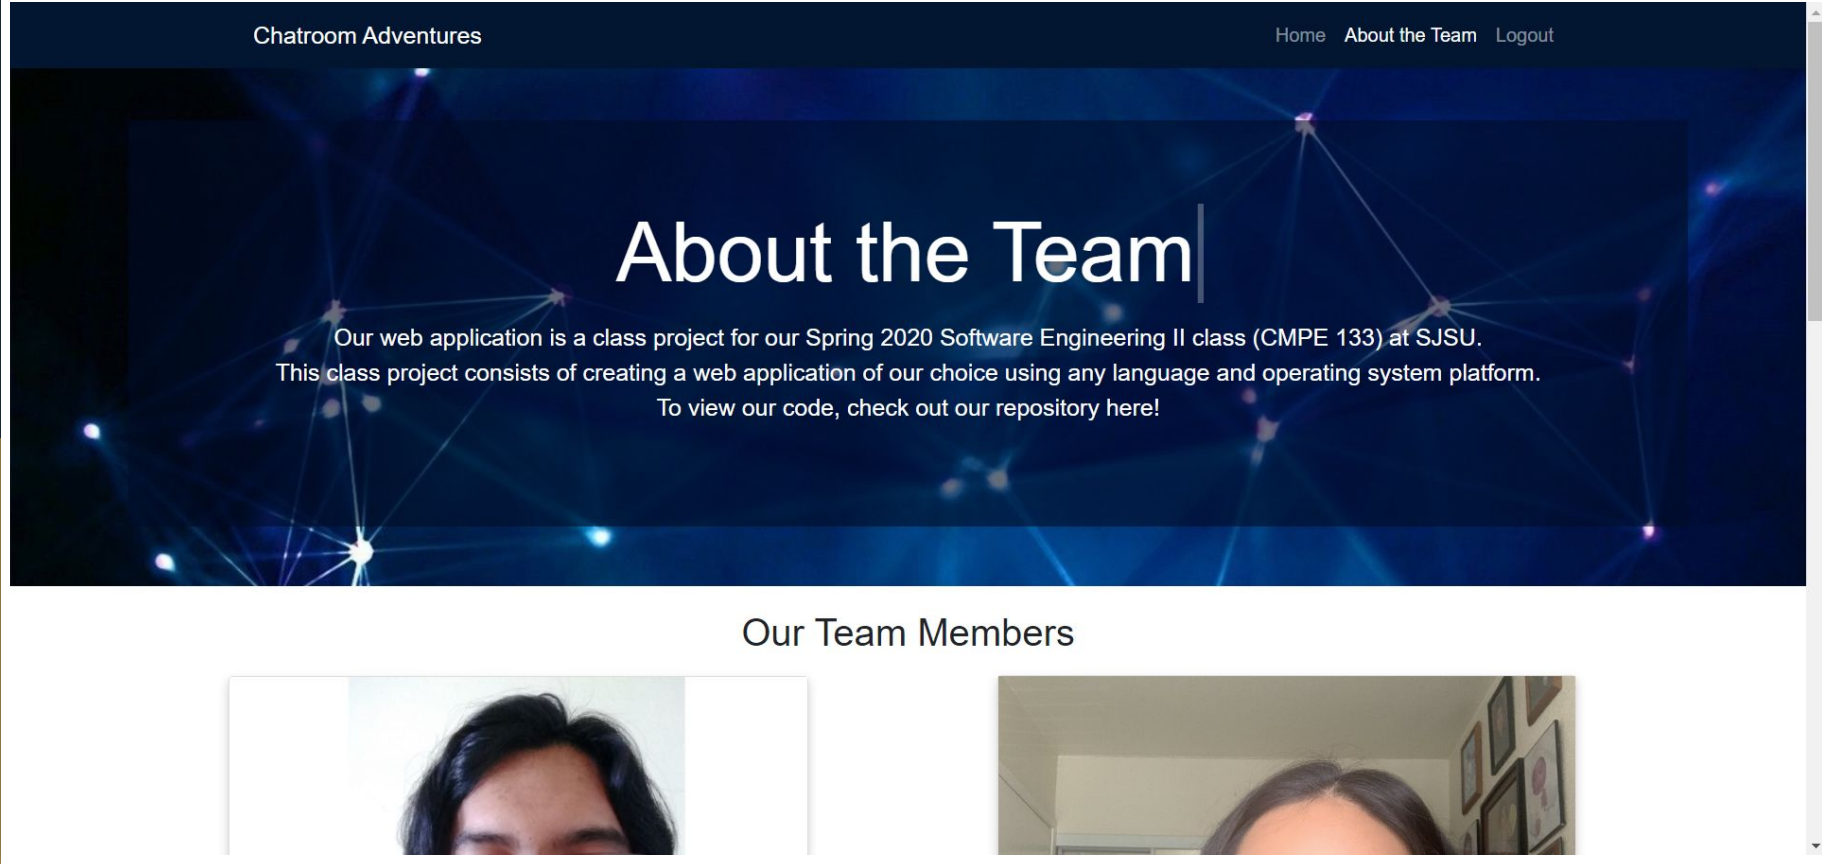

Our current progress:

- User registration and validation are fully functioning.
- Miscellaneous pages are implemented.
- We've made progress on implementation of the main gameplay aspects.
- We started our foundation for our save implementation.

Our Demo

Miscellaneous: About Page

About the Team

Our web application is a class project for our Spring 2020 Software Engineering II class (CMPE 133) at SJSU.
This class project consists of creating a web application of our choice using any language and operating system platform.
To view our code, check out our repository here!

The 9 to 5   Save   Go Back   Logout

localhost says

Did you save yet? Press OK if you want to go back or Cancel to resume your game.

OK   Cancel

12:13 AM

You, unfortunately, are not as perfect as we expected, but you've proven to yourself that you strive for it.

12:13 AM

I just want to tell you that you can achieve perfection.

Chatroom Adventures

The 9 to 5

You're a newly hired intern working for The Collective Intelligence Company (CIC). CIC believes the best way to advance is to make sure everything is in order and everyone is collaborating well. That's sounds pretty great, until...

My Name is Allie

Your professor wants you to test out his application when you meet another tester on the server. Her name is Allie, and she wants to be your friend. But who is she? What is she?

Coming soon!!!

Coming Soon

We're sorry, but this game is currently not available right now. Come back next time and see if this game is available tomorrow.
